

# Buzzwords, Slides, and AI: Bingo Edition

This bingo card is designed for anyone who's spent time in AI marketing conversations and can sense what's coming next. Use it to follow along, stay engaged, and quietly acknowledge the moments that feel familiar as sessions unfold.

Listen for commonly used AI phrases, check them off, and keep an eye out for predictable slide moments and visuals. First to bingo wins bragging rights (and possibly validation that you saw this coming), with bonus points if you fill the card by lunchtime. Play quietly. Or competitively. Or just use it as an audience engagement coping mechanism—we won't judge.
